

## BUIITEMS Prospectus: Faculty of Basic Sciences

### Welcome to BUIITEMS

Balochistan University of Information Technology, Engineering and Management Sciences (BUIITEMS) stands as a prestigious, world-class university designed to build the future with academic excellence, quality education, and applied research.

### Quick Statistics and Recognitions

HEC Ranking: Ranked No. 4 by the Higher Education Commission for Computer Science and Information Technology. Campus Activity: More than 100 open days and events are held throughout the year. Employment Rate: 80% job placement ratio within the first year after graduation. Financial Assistance: 1 out of every 3 students receives financial support. Global Standing: Member of 6 reputed international networks and associations. Recognized as "A World class university in Balochistan" by The Express Tribune (May 2015). Website: <http://www.buitms.edu.pk>

### Messages from Leadership

#### Vice Chancellor's Message

"We pride ourselves on being a university for delivering quality education that is supported by excellent research faculty and infrastructure in the region. We aim to produce new knowledge through research and practice that has local, regional and global relevance and impact. At BUIITEMS we mix learning with an emphasis on real-world experience and 'Future of Work' outlook." - Khalid Hafeez, PhD Professor of AI & Digital Transformation Fellow Royal Society of Arts (RSA-UK), Fellow Chartered Management Institute (CMI-UK), Senior Fellow Higher Education Academy (SFHEA-UK), Certified Six Sigma Master Black Belt (SSMBB-US), Certified European Foundation of Quality Management (EFQM-Brussels-Belgium), Certified Lean systems and Process Manager (Herrington Institute US), Certified Project Manager (Herrington Institute-US), Certified Natural Linguistic Programming (NLP-UK)

#### Dean's Message

"Faculty of basic sciences is one of the youngest faculty established in 2021 after bifurcation of former Faculty of Arts and Basic Sciences (FABS) into two faculties namely; Faculty of Basic Sciences (FBS) and Faculty of Social Sciences and Humanities (FSS & H). This faculty is

comprised of three departments namely Chemistry, Physics and Mathematical Sciences. Obviously the subjects taught in these departments are of crucial importance which nourishes all disciplines of applied sciences." - Prof. Dr. Hamdullah Tareen Dean, Faculty of Basic Sciences

### Core Institutional Values

#### Vision

The Faculty aspires to achieve excellence in providing quality education across all degree programs.

#### Mission

To provide students of various professions and disciplines with a sound knowledge of basic sciences, make them socially responsible citizens, and inculcate in them inquisitiveness and a passion for research.

## Objectives

To cater to a broad range of subjects for student choice. To encourage students to explore wide academic interests and acquire diverse research skills.

## University Structure and Student Profile

### Five Pillars of Excellence

BUIITEMS builds its academic mission on five pillars: the students, the faculty, the curriculum, the learning environment, and civil society.

### What BUIITEMS Looks For in Students

**Academic Potential:** Strong past academic credentials, good entry test performances, and the ability to maintain a high cumulative grade point average (CGPA). **Genuine Interest:** Students who are stimulated and inspired by their chosen fields of study rather than just seeking a degree. **Independence:** Individuals who are self-motivated, self-disciplined, and able to think critically and work independently.

## Admissions and Application Guidelines

### Four Simple Steps to Apply

1. Choose a Major: Select a field of study that genuinely interests and excites you. 2. Apply: Complete the application form via [admissions.buitms.edu.pk](https://admissions.buitms.edu.pk) or at the campus admissions office. Submit it with the required documents and processing fee receipt. 3. Test: Eligible students will take the NTS admission test standard for their chosen major. 4. Admission Offer: Offers are extended based on merit scores compiled from matriculation, intermediate, and NTS test results.

### International Applicants

BUIITEMS highly encourages international students to apply. Eligibility requirements match those for local Pakistani applicants. Transfer applicants from local or foreign institutions must meet or exceed the minimum merit score of the program and admission depends on seat availability and previous academic performance.

### Required Supporting Documents

All copies must be attested: 1. Secondary School Certificate 2. Higher Secondary School Certificate 3. Applicant's CNIC or B-form 4. Local/Domicile certificate 5. Bank draft, pay order, or cash receipt for the processing fee 6. Six recent passport-size photographs 7. CNIC of the applicant's father or guardian 8. Character Certificate from the last institution attended

### Payment and Submission Details

Application Fee: Rs. 3500 for national or manual processing; US \$75 for foreign applicants (non-refundable). Payment Methods: Bank draft/pay order to "Registrar BUIITEMS, Quetta" OR cash

deposit to Account Number 23587000000201 at Habib Bank Limited, BUIITEMS University branch, Quetta, Pakistan. Mailing Address: Admissions Office, Balochistan University of Information Technology, Engineering and Management Sciences, Takatu Campus, Airport Road, Baleli, Quetta. Contact Numbers: UAN: +92 81 111-717-111; Extensions: 163, 216, 217.

### Frequently Asked Questions (FAQs)

What is the duration of a program? BS programs run for 4 years (8 semesters). The B. Arch program spans 5 years (10 semesters). Each semester is 18 weeks long (16 weeks for teaching, 2 weeks for exams). MS programs take 2 years. Can I freeze a semester? Freezing is not allowed in the first semester. Students can freeze a maximum of two semesters across their entire program afterwards. What are the financial assistance options? Options include Merit Scholarships (after the first semester), Work and Study programs, fee concessions for needy students, sibling

concessions, concessions for dependants of employees, installment payments, and USAID need-based scholarships. What are the academic passing criteria? A minimum CGPA of 2.0 is required to graduate from undergraduate programs, and 2.5 for MS programs. How does the academic probation system work? If a student's CGPA drops between 1.0 and 2.0, they enter first probation. Failure to raise it to 2.0 leads to second probation, followed by a last probation. If the CGPA is still below 2.0 after the last probation, the

student is dropped from the university rolls. Can I change my academic program? Program transfers are discouraged but may be allowed within the first two weeks of the first semester with chairperson and dean approval, provided the student's merit score is higher than the last admitted student in that program. What is the course load limit? Standard semesters require 15-18 credit hours. The department chairperson may approve up to 21 credit hours per semester with dean approval.

### Campus Life and Facilities

#### Sports and Recreation

The campus hosts a multi-purpose sports complex, a high-class gym/fitness center, a PCB-standard cricket stadium, and a top-tier football ground. Over 3,000 students utilize these sports facilities, and approximately 1,000 take part in internal and external tournaments annually.

#### Events, Arts, and Culture

Student Affairs houses over 20 clubs and societies (such as the BUIITEMS Literary Club). Flagship annual events include the Spring Festival, Culture Feast, Homecoming, and the annual Sports Olympiad, which features over 1,000 athletes competing across 15 sports categories. The campus also features the quarterly newsletter and the Markhor magazine.

#### On-Campus Dining

Retail dining options on campus include Road Stoves, Hot & Chili, Gosha-e-Fikr-o-Nosh, Life café, and City café.

#### Community Service Initiatives

Students and staff lead the Free Citizen Schools, which provide weekend education (Urdu, English, math, science) to child laborers. BUIITEMS is also recognized for its province-wide blood donation drives and

youth career/scholarship counseling services.

## Regional Geography and Attractions

BUIITEMS is situated in Quetta, known as the "fruit basket of Pakistan," surrounded by valleys and mountains. Notable regional destinations include: Hanna Lake & Urak Valley: A turquoise lake located 10 km east of the city, popular for hiking and boating. Hazarganji Chiltan National Park: Located 20 km southwest, featuring the Chiltan Hill Viewpoint and native wildlife. Ziarat: Located 125 km north, home to the world's second-largest ancient juniper forest. Pir Ghaib: A waterfall and picnic destination 70 km away in the Bolan Valley. Museums: The Quetta Geological Museum (Sariab Road), Command and Staff College

Museum (Field Marshal Montgomery's former bungalow), and the Quetta Archaeological Museum (Wafa Road, featuring Mehrgarh artifacts).

## Faculty of Basic Sciences (FBS) Overview

Established in September 2020 after splitting off from the former Faculty of Arts and Basic Sciences (FABS), the Faculty focuses heavily on foundational coursework crucial for engineering, medical, and computing professions. It comprises three main departments: Chemistry, Physics, and Mathematical Sciences. All departments run undergraduate programs; Chemistry and Physics provide MS and PhD programs, while Mathematical Sciences provides an MS track (with a PhD program in development).

### 1. Department of Chemistry

Established in 2015, the department features specializations in Organic, Inorganic, Physical, Analytical, and Biochemistry. The academic team includes 13 PhD faculty members and 4 MS-qualified lecturers.

### Key Research Instruments Available

Fluorescence Spectrometer UV-Visible Spectrophotometer Flame Photometer Viscometer Stalagmometer Tensiometer Digital pH Meter Digital Conductivity Meter Centrifuge and Microcentrifuge Refractometer Fluorometer Ultrasonic Cleanser

### BS Chemistry Program Structure

Compulsory Requirements (No Choice): 9 courses, 25 credit hours (19.23%) General Courses (from other departments): 7 to 8 courses, 21 to 24 credit hours (17.30%) Discipline Specific Foundation Courses: 9 to 10 courses, 30 to 33 credit hours (24.23%) Major Courses (including Research Project/Internship): 11 to 13 courses, 36 to 42 credit hours (30.0%) Elective Courses within the Major: 4 courses, 12 credit hours (9.23%) Total Requirements: 40 to 44 courses, 124 to 136 total credit hours across 4 years (8 semesters).

### BS Chemistry Semester Roadmap

Semester 1: Inorganic Chemistry-I, Computer Fundamentals, Mathematics-I, Pakistan

Studies, Reading and Writing Skills, Physics. Semester 2: Organic Chemistry-I, Environmental Chemistry, Food and Nutrition Chemistry, Mathematics-II, Islamic Studies/Ethics, Academic Reading and Writing. Semester 3: Physical Chemistry-I, Basic Forensic Chemistry, Applied Chemistry, Introduction to Psychology, Statistics, Communication & Presentation Skills. Semester 4: Analytical Chemistry-I,

Biochemistry-I, Soil Chemistry, Research Methods, Fuel Chemistry. Semester 5: Biochemistry-II, Inorganic Chemistry-II, Organic Chemistry-II, Physical Chemistry-II. Semester 6: Analytical Chemistry-II, Inorganic Chemistry-III, Organic Chemistry-III, Physical Chemistry-III. Semester 7: Special Course I, Special Course II, Special Course III, Special Course IV, Special Course V, Special Lab-I. Semester 8: Special Course VI, Special Course VII, Special Course VIII, Special Lab-II, Research Project.

#### MS and PhD Chemistry Curriculums

MS Chemistry: Coursework consists of Core Courses I through V and Elective Courses I through III spanning the first two semesters, followed by a mandatory Research Thesis in the third semester. PhD Chemistry: Consists of six unique elective courses across the first two semesters

followed by a Doctoral Dissertation.

#### Chemistry Faculty Profiles

Prof. M. Naeem Shahwani (Professor): PhD from University of Glasgow, Scotland, UK. Specializes in environmental stress on plant membranes using physiological, biochemical, and genetic approaches. Dr. Muhammad Nawaz (Associate Dean / Associate Professor): PhD from University of Rostock, Germany; Postdocs from Korea University and University of Sao Paulo, Brazil. Specializes in organic synthesis, catalysis, and natural products chemistry. Dr. Hameeda Panezai (Chairperson / Professor): PhD from Beijing University of Technology, China. Specializes in nano- and microporous materials for environmental remediation and energy storage. HEC Approved Supervisor. Dr. Fouzia Abdul Sattar (Professor): PhD from HEJRIC, University of Karachi; Postdocs from University of Malaya, University of Bath (UK), Trinity College Dublin (Ireland), and FJIRSM China. Specializes in medicinal chemistry, catalysis, and organic synthesis. Dr. Fayaz Ahmed (Professor): PhD from HEJRIC, University of Karachi; Postdocs from University of Karachi and FJIRSM China. Specializes in natural products and surface functionalization. Dr. Gulfam Nasar (Associate Professor): PhD from University of Peshawar. Specializes in nanomaterials, polymer composites, ferrites, and material science. Dr. Shazia Iqbal (Associate Professor): PhD from HEJRIC, University of Karachi. Specializes in natural product chemistry and environmental microbiology. Dr. Mamoon Ur Rashid (Associate Professor): PhD from University of Peshawar. Specializes in medicinal chemistry and natural products. Dr. Hamid Ullah (Associate Professor): PhD from State University of Campinas, Brazil.

Specializes in organic synthesis and natural product chemistry. HEC Approved Supervisor. Dr. Aziza Sarwar (Assistant Professor): PhD from University of Malaya, Malaysia. Specializes in transition/lanthanide metals-azomethine complexes and hydrothermal synthesis. Dr. Muhammad Raheel (Assistant Professor): PhD from Quaid-i-Azam University, Islamabad. Specializes in physical chemistry, polymer nanocomposites, and colloid chemistry. Dr. Mujtaba Ellahi (Assistant Professor): PhD from University of Science and Technology, Beijing, China. Specializes in nanochemistry and nanotechnology. HEC Approved Supervisor. Dr. Zahoor Ullah (Assistant Professor): PhD from Universiti Teknologi PETRONAS, Malaysia. Specializes in ionic liquids, biofuels, and renewable energy. HEC Approved Supervisor. Dr. Mohibullah (Assistant Professor): PhD from Quaid-i-Azam University, Islamabad. Specializes in polymers, polymer composites, and hybrid cryogels. Mr. Umair Ahmed (Lecturer - On Study Leave): MS and MSc from University of Balochistan. Focuses on organic synthesis and drug design. Samra Farooq (Lecturer): M.Phil from SBK Women's University, Quetta. Focuses on green synthesis and nanochemistry. Ms. Noorname (Lecturer): MS from BUITEMS. Focuses on biological and physicochemical water analysis.

Mr. Saiful Hanan (Lecturer): MS from BUIITEMS. Focuses on inorganic complex analysis.

## 2. Department of Physics

The department has offered undergraduate tracks since 2004 (originally under the ICT faculty before transitioning to the Faculty of Arts and Basic Sciences in 2007). It maintains two high-tech research centers: the Plasma Physics Laboratory (PPL) and the Materials Research Laboratory (MRL).

### BS Physics Semester Roadmap

Semester 1: Mechanics, Lab-I, Calculus-I, Reading and Writing Skills, Pakistan Studies, Computer Fundamentals. Semester 2: Electricity and Magnetism-I, Heat and Thermodynamics, Lab-II, Islamic Studies/Ethics, Introduction to Geology, Calculus-II, Communication & Presentation Skills. Semester 3: Electricity and Magnetism-II, Waves and Oscillations, Modern Physics, Lab-III, Linear Algebra, Academic Reading & Writing, Statistics-I.

Semester 4: Optics, Lab-IV, Differential Equations, Introduction to Psychology, Statistics-II, Introduction to Chemistry, Programming Fundamentals. Semester 5: Mathematical Methods of Physics-I, Electromagnetic Theory-I, Classical Mechanics, Basic Electronic Devices-I, Statistical Physics, Lab-V. Semester 6: Mathematical Methods of Physics-II, Quantum Mechanics-I, Electromagnetic Theory-II, Atomic & Molecular Physics, Basic Electronic Devices-II, Lab-VI. Semester 7: Quantum Mechanics-II, Solid State Physics-I, Lab-VII, Project Part-I,

Elective I, Elective II. Semester 8: Solid State Physics-II, Nuclear Physics, Project Part-II, Elective III, Elective IV.

### MS and PhD Physics Curriculums

MS Physics: Includes Mathematical Methods of Physics, Electrodynamics, Methods and Techniques of Experimental Physics, and Quantum Mechanics-I in the first semester; four elective choices in the second semester; and a final Research Thesis. PhD Physics: Six elective courses split evenly over two semesters, followed by a Doctoral Dissertation.

### Physics Faculty Profiles

Prof. Dr. Hamdullah Khan Tareen (Dean / Professor): PhD from Quaid-i-Azam University, Islamabad. Specializes in plasma physics and material processing by plasma. HEC Approved Supervisor. Prof. Dr. H. M. Noor ul Huda Khan Asghar (Chairperson / Professor): PhD from Dalian University of Technology, China. Specializes in energy materials, magnetic materials, and nanotechnology. HEC Approved Supervisor. Prof. Dr. Syed Zaheer Abbas Gilani (Professor): PhD from The Islamia University of Bahawalpur. Specializes in materials science and magnetic materials. HEC Approved

Supervisor. Dr. Nisar Ahmad (Assistant Professor): PhD from Universiti Sains Malaysia. Specializes in soil physics and radiation physics. HEC Approved Supervisor. Dr. Muhammad Naeem Khan (Assistant Professor): PhD from University of Brunei Darussalam. Specializes in perovskite solar cells and solid oxide fuel cells. HEC Approved Supervisor. Dr. Farooq (Assistant Professor): PhD from Dalian University of Technology, China. Specializes in theoretical physics, quantum opto-mechanics, and condensed matter. HEC Approved Supervisor. Dr. Rafaqat Hussain (Assistant Professor): PhD from COMSATS, Islamabad. Specializes in spintronic materials, microfabrication, and nano-spectroscopy. Muhammad Khalid

(Assistant Professor): PhD (Final Stage) at Xi'an Jiaotong University, China. Specializes in spintronic renewable energy and photovoltaics. Dr. Sunila Bukhsh (Assistant Professor): PhD from University of Science and Technology of China (USTC). Specializes in condensed matter physics and electronic structure calculations. Sumayya Abdul Wadood (Lecturer): MS from BUITEMS. Specializes in material science and quantum dots. Niamat Ullah Khan (Lecturer): PhD in progress at Quaid-i-Azam University, Islamabad. Specializes in theoretical high-energy physics. Muhammad Akram Khan (Lecturer - On Study Leave): PhD in progress in the USA. Specializes in theoretical high-energy physics and cosmology. Dr. Javed Rehman (Lecturer): PhD from Jilin University, China. Specializes in theoretical screening of 2D and 3D materials for metal-ion batteries. Sameen Aslam (Lecturer - On Study Leave): MS from BUITEMS. Specializes in nanotechnology and magnetic materials.

Mr. Muhammad Saad (Lecturer - On Study Leave): MS from Quaid-i-Azam University, Islamabad. Specializes in quantum magnetism and 2D material magnetic effects. Furhaj Ahmed Sheikh (Lecturer): MS from BUITEMS. Specializes in nanotechnology and spinel-ferrites. Abdul Qayyum (Lecturer): MS from BUITEMS. Specializes in quantum optics and optomagnonics. Mr. Muhammad Umar Siddiqui (Assistant Professor): MS from BUITEMS. Specializes in semiconductor physics.

### 3. Department of Mathematical Sciences

Established in 2003, it stands as one of the largest foundational departments within the university. It serves all other corporate university faculties alongside handling its specific BS and MS mathematics streams.

#### BS Mathematics Semester Roadmap

Semester 1: Calculus I, Elements of Set Theory and Mathematical Logic, Islamic Education/Ethics, Fundamentals of Computers, Reading and Writing Skills, Physics-I. Semester 2: Calculus II, Software Packages (Introduction to MATLAB and Maple), Introduction to Statistics, Communication and Presentation Skills, Pakistan Studies, Physics-II. Semester 3: Algebra I (Group Theory), Calculus III, Technical Report Writing and Presentation Skills, Discrete Mathematics, Introduction to Sociology. Semester 4: Affine and Euclidean Geometry, Numerical Methods and Linear Programming, Linear Algebra, Algebra II (Ring Theory), Introduction to Economics. Semester 5: Point Set Topology, Classical Mechanics, Complex Analysis, Real Analysis I, Vector and Tensor Analysis. Semester 6: Differential Geometry, Mathematical Methods, Numerical Analysis, Ordinary Differential Equations, Real Analysis II. Semester 7: Number Theory, Functional Analysis, Elective-1, Elective-2, Partial Differential Equations, Project-I. Semester 8: Probability Theory, Integral Equations, Elective-3, Elective-4, Project-II.

#### MS and PhD Mathematics Curriculums

MS Mathematics: Four core courses in the first semester, followed by four electives in the second semester, concluding with a research thesis across the third and fourth semesters. PhD Mathematics: Formally introduced in 2022. Follows a layout of six doctoral elective

subjects over two semesters followed by a final Doctoral Dissertation.

#### Mathematics and Statistics Faculty Profiles

Dr. Hasrat Hussain Shah (Chairperson / Associate Professor): PhD from University of Science and Technology of China (USTC). Specializes in general relativity and modified gravity theories. HEC

Approved Supervisor.

Prof. Dr. Muhammad Zubair Khan (Professor / Director PRC): PhD from Hajvery University & Aksaray University. Specializes in applied statistics, econometrics, and panel data regression. HEC Approved Supervisor. Dr. Farooq Hussain (Associate Professor): PhD from International Islamic University, Islamabad. Specializes in multiphase flows, peristalsis, and bubble dynamics. Dr. Sardar Muhammad Hussain (Assistant Professor): PhD from University of Sao Paulo, Brazil. Specializes in fluid mechanics. Mr. Asghar Ali (Assistant Professor): MPhil from Newcastle University, UK. Specializes in M-theory and string theory. Mr. Malik Hafizullah (Assistant Professor - On Study Leave): PhD in progress at Sindh University. Specializes in partial differential equations (PDEs). Ms. Sahar Raza (Assistant Professor): MS from Air University, Islamabad. Specializes in fluid dynamics and mathematical biology. Dr. Naheeda Iftikhar (Assistant Professor): PhD from University of Balochistan. Specializes in fluid mechanics and numerical computation. Dr. Hassan Shah (Assistant Professor): PhD from University of Peshawar. Specializes in gravitational collapse and black hole thermodynamics. HEC Approved Supervisor. Mr. Irfan Ali (Assistant Professor - On Study Leave): PhD in progress at Ghent University, Belgium. Specializes in geometric function theory and harmonic analysis. Mr. Qaisar Khan (Assistant Professor - On Study Leave): PhD in progress. Focuses on group theory and mathematics education history. Mr. Attaullah (Assistant Professor): PhD in progress in the USA. Focuses on

computational fluid dynamics. Dr. Abdul Quayam Khan (Lecturer): PhD from Lahore University of Management Sciences (LUMS). Ms. Ayesha Saif (Lecturer): MS from BUITEMS. Focuses on special functions. Mr. Najeebullah (Lecturer): MS from BUITEMS. Focuses on geometric function theory. Ms. Maryam Safdar (Lecturer): MS from BUITEMS. Focuses on special functions. Mr. Mudassar Iqbal (Lecturer - On Study Leave): PhD in progress at Universiti Teknologi PETRONAS, Malaysia. Focuses on computer graphics and surface modeling. Mr. Abdul Wahid (Lecturer): MS from BUITEMS. Focuses on mathematical modeling and biology. Mr. Aziz ur Rehman (Lecturer): MS from BUITEMS. Focuses on fluid mechanics. Mr. Hazrat Ali (Lecturer): MPhil from Hazara University, Mansehra. Focuses on numerical techniques for differential systems. Ms. Faiza (Lecturer): MS from National University of Sciences & Technology (NUST), Islamabad. Focuses on fractional difference equations. Ms. Farah Naz (Lecturer): MSc from COMSATS, Islamabad. Focuses on fuzzy set theory. Mr. Bakhtiar Ahmed (Lecturer): MPhil from Quaid-i-Azam University, Islamabad. Focuses on computational group theory. Mr. Maqbool Ahmed (Lecturer in Statistics): MPhil from LUAWMS. Specializes in structural equation modeling and machine learning. Ms. Arifa Jahangir (Lecturer in Statistics): MS from International Islamic University, Islamabad. Specializes in mixture models. Ms. Saima Fareed (Lecturer in Statistics): MSc from Gomal University. Specializes in financial time series analysis. Mr. Manzoor Ahmed (Lecturer in Statistics): MPhil from Pakistan Institute of

Development Economics (PIDE). Specializes in time series and structural equation modeling. Mr. Muhammad Bilal (Lecturer in Statistics - On Study Leave): PhD in progress at Abdul Wali Khan University, Mardan. Specializes in applied statistics. Ms. Faiza Saeed (Lecturer in Statistics): MS from BUITEMS. Specializes in environmental statistics. Ms. Farida Aslam (Lecturer in Mathematics): MS from SBK Women's University. Specializes in fluid dynamics. Mr. Syed Abdul Rehman (Lecturer in Statistics - On Study Leave): PhD in progress at Quaid-i-Azam University, Islamabad. Mr. Tahir Mehmood (Lecturer in Mathematics - On Study Leave): PhD in progress at SMS, Lahore. Specializes in optimization and linear programming. Mr. Mohammad Yaseen (Lecturer in Mathematics - On Study Leave): PhD in progress at University of Balochistan. Specializes in optimization and mathematical modeling.

Quality Policy and Affiliations

## Quality Policy Statement

BUIITEMS is dedicated to defining standards and systems for the uplift of the socio-economic order through quality education and services by: Providing an environment conducive to learning, teaching, academic inquiry, and innovation. Maintaining academic excellence and professionalism. Adhering to established systems for ensuring good governance for management and transfer of knowledge. Benchmarking with other leading institutions of higher education for improvement. Enhancing efficient and effective operations by encouraging the participation of stakeholders. Pursuing continuous improvement through creativity, teamwork, and adaptation to change. Playing a catalytic role to achieve national, regional, and global harmony.

## Certifications and Memberships

ISO 9001:2015 Certified (TÜV Austria)

Member of the International Association of Universities (IAU) Member of The Talloires Network Member of the American Society for Quality (ASQ) Partnered with United Nations Academic Impact (UNAI), supporting a culture of intellectual social responsibility.
